

Use the short method to solve these problems.

1  $48 \div 4 =$

2  $68 \div 2 =$

3  $69 \div 3 =$

4  $88 \div 4 =$

5  $65 \div 5 =$

6  $36 \div 2 =$

7  $70 \div 5 =$

8  $76 \div 4 =$

9  $92 \div 4 =$

10  $96 \div 8 =$

- 1 Place the large number inside the bus stop and the small number outside.
- 2 Divide one number at a time.
- 3 Exchange any remainder and place it into the next column.
