

Maple Class Autumn Term Home Learning Challenges

In addition to your weekly spellings and reading homework, I would like you to choose **AT LEAST TWO BUT NO MORE THAN FOUR ACTIVITIES** from the eight suggestions below. For each activity you will score a certain amount of merits depending on its quality, length, presentation and the effort you have made. Please return your Home Learning Challenges book to school on Friday 28th November so your learning can be shared with the whole class. **HAVE FUN!!!**

Research then either draw and colour or make some Egyptian amulets. Explain what they were used for and why you've chosen your design. (3 merits)

Research the colour and relative sizes of the planets then use your creativity to make a model of The Solar System. (3 merits)

Design a new gadget to help Alex Rider on his next mission. Create a poster labelling your ideas or even a model (3 merits)

Research hieroglyphs then use them to write a coded message. Make sure you provide the solution/de-coded message! (3 merits)

Research, draw and describe an Egyptian god or goddess. Then create your own - what would it look like and be responsible for? (3 merits)

How were mummies made? Research the process then write detailed - and illustrated- instructions. (3 merits)

Create a factfile about Tutankhamun and the discovery of his tomb. Research, effort and excellent presentation will earn most merits! (3 merits)

Research the International Space Station then write a diary entry of an astronaut living and working there. (3 merits)
