Curriculum Statement

At Christ Church CE Primary School, we value pupils' education and aim to provide a broad and balanced curriculum that is accessible to all, underpinned by a Christian foundation based on our core values of Compassion, Love, Truthfulness, Trust, Forgiveness and Service. We do not tolerate discrimination of any kind and our curriculum celebrates the diverse nature of our society, enabling pupils to embrace the world around them – encouraging adherence with the fundamental British values. We also seek to promote the spiritual, moral, social, cultural, mental and physical development of pupils at our school. and of society.

This policy outlines our dedication to establishing a well-rounded and robust curriculum, as well as the provisions surrounding its creation.

Pupils' learning and development is at the heart of our school's curriculum; it is broad and balanced and equips pupils with the skills necessary to succeed in life after school.

Our curriculum intent statement outlines how the school has created the curriculum and the benefits it will bring to pupils' learning and self-improvement.

Curriculum intent

We have designed our curriculum with pupils' learning at the centre. We recognise that a curriculum has to be broad, balanced and offer pupils opportunities to grow as individuals as well as learners. Our school values the input of its pupils, parents and the local community with regards to the planning and delivery of the curriculum. We believe pupils get a well-rounded education if everyone is involved in shaping it.

We aim to ensure pupils enjoy learning and feel prepared for life after school. We also intend to offer our pupils new and exciting experiences through extra-curricular activities to enhance their learning experience. These opportunities are designed to build resilience, confidence and self-esteem and allow pupils to form personal connections with their peers and teach skills essential for life after school. Our curriculum will be delivered in accordance with the Equality Act 2010, through a variety of methods, including those outlined below.

Classroom-based learning: Accessing different learning resources and equipment to broaden pupils' knowledge, and making cross-curricular links where possible within lesson plans, so that pupils can draw upon knowledge from different subjects and understand how each topic plays a part in everyday life. Children are encouraged to make links with their previous learning, develop skills and be reflective. Classroom teaching also includes adaptive approaches, including one-to-one and small group tuition for pupils who require additional support. We have high aspirations for all.
