MESSAGE FROM MRS JAMES

Help Us Shape Our Enrichment Offer

At Christ Church, we want every child to leave primary school with wonderful memories, new experiences, and the knowledge and skills they need to flourish in the future.

This year, our staff team will be reviewing and enhancing our whole-school enrichment offer. As part of this work, we would love to hear from both our children and families about the experiences, life skills, and opportunities you feel are important for every child to have before they leave primary school.

Our enrichment provision is being developed around the Government's five key enrichment areas:

⭐ Creativity and the Arts
⭐ Sport and Physical Activity
⭐ Volunteering and Social Action
⭐ Learning with Others and Building Relationships
⭐ The World of Work and Future Aspirations

Over the coming weeks, we will be inviting pupils and families to share their ideas and aspirations. Whether it is performing on a stage, speaking confidently to an audience, managing money, or developing practical life skills, your views will help us create an enrichment offer that is meaningful, ambitious, and relevant for our children.

We look forward to working together to ensure every child at Christ Church continues to experience a rich and memorable primary education that prepares them for the next stage of their journey.

Wishing you all a lovely weekend.
