MESSAGE FROM MRS JAMES

Dear parents and carers

This week, our children took part in the live Picture News Allergy Awareness Assembly, joining schools across the country to learn more about allergies and how we can support those who live with them every day.

During the assembly, the children learned that allergies can affect different people in different ways and that, for some children and adults, allergic reactions can be very serious. We discussed the importance of being kind, considerate and responsible, particularly when it comes to food and sharing snacks.

As a school, we reflected on how everyone has a part to play in keeping others safe. The children showed great maturity in discussing how small actions, such as checking ingredients, washing hands and following school rules about food, can make a big difference to someone's wellbeing.

Our children considered how it feels to live with an allergy and why it is important that everyone feels safe, understood and able to participate fully in school life.

By learning together, we are helping to create a community where everyone looks out for one another and understands that keeping each other safe is everyone's responsibility.

Thank you for your continued support in helping us maintain a safe and caring environment for all children.

Have a lovely weekend.
